Protection Sleeve Black PVC

Produktinformation

Protective PVC sleeves made of high-performance PVC provide effective protection against sharp edges of the load, according to EN 1492-1 and EN 1492-2 for lifting devices and EN 12195-2 for lashing systems. They can be easily attached to any type of sling, and are designed to slide smoothly over slings to reduce shocks. The guards are available in a tailor-made version, with the possibility of fine-tuning the length to the centimeter.
