

Eye Nut RUD VRM STARPOINT

Product information

Multi-directional threaded design, load rating up to six times the capacity of collared eye nuts.

Design: Octagonal lifting eye.

For bolts with min. quality class 10.9

Material: Forged high strength steel

Marking: According to standard, CE-marked, WLL, indication for the most unfavourable case

Temperature range: -40° up to 100°C (no reduction of WLL)

Finish: Striking fluorescent pink powder coating

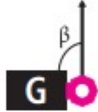

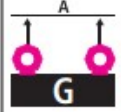

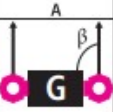

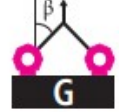

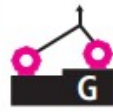

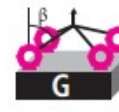

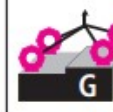

Standard: EN 1677-1

Safety factor: 4:1

Grade: 10

At a lift with one strand and two parallel strands where the inclination angles are at the max. $\pm 7^\circ$, the lifting method can be assumed as a vertical lift.					When lifting with two, three or four leg lifting means, inclination angles of less than 15° shall be avoided, if possible (Risk of instability).
