Smartbar FORANKRA HD

Product information

SMARTBAR HD is a locking bar for professionals involved in the transportation of commercial and delivery vehicles. Most importantly, drivers, carriers and suppliers should have the right equipment in their vehicle. With a locking capacity of 400 daN, the HD bar makes it easy to lock cargo and secure goods by restricting movement in the event of braking or evasive maneuvers.

Practical and ergonomic, the SMARTBAR HD can be installed with a single movement thanks to a bracket that allows easy positioning of the tip in the mounting rail or airline bar. For H1, H2 or H3 commercial vehicle dimensions, the HD bar can be customized upon request. SMARTBAR HD is a professional locking bar for transport in commercial and delivery vehicles. It facilitates the locking of cargo, ensuring safety during braking and maneuvering. Ergonomic design allows for easy positioning in the lashing rail/airline. Adaptable to different vehicle dimensions
