

Flexible 3 Way Barrier GEMINI C

Product information

Gemini C is a version of the barrier from the HARD-FLEX® series, designed specifically to protect infrastructure elements such as columns, distribution boxes, or technical cabinets that require protection on three sides while maintaining access from one side. Its design ensures effective protection in industrial environments where both safety and functionality are of the highest importance.

Material: Hard-Flexx® plastic

Note: System connections Anchoring to the floor using concrete screws RLX-12X100

Part code	Dimensions mm	Delivery time
53010059B	1200x1000	12
53010061B	1200x600	12
