Shackles, SAE - bow model with locking SAK PLBP

Product information

Shackles approved for lifting. Bow shackles are suitable for use when more than one attachment is to be made to the body (multi-leg systems), or to allow freedom of movement in the plane of the bow. Locking bolt shackles are recommended for long-term and permanent installations, or when there is a natural tendency for the pin to unscrew (rotate) in the application, or when the shackle cannot be observed under operation.
