Airline track rectangular light Black

Product information

The Airline Track Rectangular Light (Black) is a lightweight and economical securing track designed as an alternative to heavy and medium-duty systems. It is ideal for use in mock-ups, assembly stations, and light transport applications.

This track is manufactured from commercial aluminium alloys and finished with a durable black coating, ensuring low weight, corrosion resistance, and a clean, modern appearance. It is compatible with most fittings corresponding to AS33601 or ISO 7166, making it easy to integrate into existing setups.
