

Double Sleeve for Roundslings

Product information

The Double Sleeve is designed to protect textile slings from mechanical damage such as abrasion, cuts and sharp load edges. Its double sleeve construction extends sling service life and enhances safety during lifting operations. Widely used in industrial, logistics and transport applications where equipment protection and reliability are essential.

Material: Poliester

Part code	Width mm	For roundslings ton	Colour	Delivery time
110500180	45	1	Purple	2
110400010	46	2	Green	2
110400030	53	3	Yellow	2
110400040	68	4	Grey	2
