

PES Fiber

Product information

PES fiber designed for the production of roundslings used in demanding lifting operations. This modern synthetic material offers high load capacity, durability, and consistent technical performance. It ensures safety, reliability, and long service life in industrial and logistics applications.

Material: PES

Part code	Size	Delivery time
110200010	Thickness 132000 dtex	2
110200020	Thickness 66000 dtex	12
