Fender F42 Double Plug & Play Bawer

Product information

The Bawer Fender F42 Plug & Play is a mudguard designed for dual-wheel industrial vehicles. It helps limit the spread of mud, water and road debris during vehicle operation. The Plug & Play configuration is intended to simplify mudguard installation.

Best used for:

- Dual-wheel industrial vehicles requiring protection against road spray and debris.
- Installations requiring a Plug & Play mudguard mounting configuration.

Product benefits:

- Dual-wheel configuration provides mudguard coverage for suitable industrial vehicle applications.
- Plug & Play design simplifies installation compared with conventional mounting arrangements.
- Mudguard coverage helps limit the spread of water, mud and debris.
- Mudguard arc length 1460 mm
