Fender F42 Double SIMPLE Bawer

Product information

The Bawer Fender F42 Simple is a polypropylene mudguard designed for dual-wheel industrial vehicles. It helps protect the vehicle from mud, water and road debris while providing a lightweight, corrosion-resistant solution for demanding road conditions. Its functional design supports installation with conventional mounting tubes and brackets.

Best used for:

- Dual-wheel industrial vehicles requiring wheel coverage and protection against road spray.
- Installations using conventional mounting tubes and brackets rather than Plug & Play fittings.

Product benefits:

- Technopolymer construction resists corrosion, supporting durability in exposed road conditions.
- UV and low-temperature resistance supports use in varying weather conditions.
- Lightweight construction simplifies handling and positioning during installation.
- Conventional tube and bracket compatibility provides flexibility in mounting configurations.
- Compatible with different mud flap types for adaptable splash protection.
- Mudguard arc length 1460 mm
