Dunnage Bag Electric Inflator

Product information

Powered with a 6600Mah rechargeable lithium ion battery, this unit has a continuous run time of up to 4 hours. The housing is fibre based making it strong enough to withstand the tough loading dock environment. The motor puts out a powerful 28 CFM. It comes with two rechargeable batteries, charger, carry strap and inflation hose with quick connect. It can be used with or without the hose.

Each unit comes with:

- Two 18V, 6600mAh rechargeable batteries
- 18" Flex hose that screws onto the unit for inflation and deflation
- Quick connect attachment tip to fit on dunnage bag valve
- Shoulder strap
- Charger

Features:

- Only weighs 7.2lbs
- Air volume output of 28 CFM
- Run time on full charge - 4 hours
- Time to fully charge unit - 25min
- Inflates bag up to 1.2 PSI
