Fender F42 Double Flat-Top Bawer

Product information

The Bawer Fender F42 Flat-Top is a technopolymer mudguard designed for dual-wheel industrial vehicles. Its flat-top configuration provides wheel coverage to help limit the spread of mud, water and road debris. The lightweight, corrosion-resistant construction supports use in exposed road conditions and accommodates different mounting arrangements.

Best used for:

- Dual-wheel commercial and industrial vehicles requiring flat-top mudguard coverage.
- Installations requiring flexible mounting arrangements and compatibility with mud flaps.

Product benefits:

- Technopolymer construction resists corrosion in exposed road environments.
- UV and low-temperature resistance supports use in varying weather conditions.
- Lightweight construction simplifies handling and positioning during installation.
- Compatible mounting arrangements allow installation using tubes and fixing brackets.
- Mud flap compatibility supports additional protection against road spray.
- Mudguard arc length 1460 mm
