Polyester Webbing for Lifting Slings

Інформація про товар

Polyester webbing designed for the production of lifting slings is a high-quality material built for demanding industrial environments. It offers excellent tensile strength, high abrasion resistance, and durability against external factors. Its flexibility and reliability ensure safe lifting and transport of loads. Perfect for use in logistics, construction, and heavy industry applications.

Webbings can be used for production of 2 layers webbing slings as in below table:

Webbing number	Webbing sling B2 WLL t
110100590	1
110101050	2
110101170	3
110101280	4
110101330	5
110101350	6
110101410	8
110101420	20
110101450	24
